## THE TRUSTED EVV SOLUTION FOR PROGRAM PROVIDERS & FMSAS

Vesta EVV is the #1 Electronic Visit Verification vendor in Texas, successfully serving over 2,600 Medicaid Program Providers. With over 180 million historical transactions and 300,000 transactions each weekday, it's clear why Vesta EVV is the preferred choice among Medicaid Program Providers in Texas. Based on years of experience, Vesta EVV delivers a reliable, easy to use and fully compliant EVV solution. Vesta EVV includes the following features:

### MEMBER MANAGEMENT

View Member's demographic and EVV information all in one place. Additionally, Vesta EVV utilizes a process that retrieves and posts Member Medicaid Eligibility data from TMHP daily, so Member Eligibility is always verified.

### AUTHORIZATIONS

Easily manage and identify Member's Payer, Program and Services(s) for all program types. Additionally, Vesta delivers daily electronic authorization records received from TMHP for Fee for Service programs, alerting Program Providers and FMSAs to any changes or discrepancies.

### VISITPLAN

Based on service authorizations, VisitPlan makes it easy for Program Providers to create schedules and assign Service Attendants to Members who are receiving services.

### VISITLOG

Each night, Vesta loads the next day's schedule into VisitLog. As employees send start and end times to Vesta, that data is reconciled with VisitLog.

### VISITVERIFY

Visits that cannot be automatically verified can easily be identified and verified manually with a simple, three-step process in VisitVerify.

### VISIT REPORTS

Vesta provides complete visibility and electronic documentation with comprehensive reporting features. Say goodbye to information lags and documentation gaps.

# #1 EVV Vendor in Texas & Highest Rating For a State Contractor (Grade of A)

## EASY TO IMPLEMENT

Vesta EVV provides an easy path to EVV implementation with experienced support and training teams to assure every Program Provider is properly prepared.

## SUPERIOR SUPPORT

Vesta EVV thorough training and excellent customer support to meet the needs of its users.

For Program Providers and FMSAs searching for a reliable and easy-to-use EVV system that streamlines operations while meeting compliance requirements, look no further than Vesta EVV. With Vesta, users are able to:

- ▶ Integrate all EVV data into a comprehensive system
- ▶ Improve operations and individual care
- ▶ Enjoy a user-friendly interface
- ▶ Access Vesta EVV from anywhere, at anytime
- ▶ Meet all federal and state EVV Compliance Requirements
- ▶ Meet HIPAA Compliance Requirements
- ▶ Interface existing 3<sup>rd</sup> Party Management System with Vesta EVV

Plus, Vesta EVV also offers additional business solutions:

### **Vesta CDV**

Vesta CDV (Consumer Directed Verification) is a free simple solution for Consumer Directed Employers to manage, verify and approve time. It can be used on any smartphone, tablet, or computer.

### **Vesta Biller**

Vesta Biller, the #1 billing system for Texas Medicaid Program Providers, is optimized to work with Vesta EVV to ensure claim payments on a timely basis.

---

### **Trust Vesta EVV! Customer Testimonial**

We have been using Vesta for EVV, payroll and billing since 2015. At its core, it is a solid piece of software, and customer service is very responsive if we have any problems. They also make frequent updates to improve it. Being able to approve to enter/approve our caregivers' hours just once, and then have those hours flow automatically to payroll and then to billing, has cut down our workload and errors tremendously!

Thanks

Sam Banerjee

President, Aunt Mae's Home Care

# Fast, Easy & Reliable Methods for Electronic Visit Verification

## SMARTPHONE APP

The Vesta EVV Mobile App makes it quick and easy for Service Attendants and CDS Employees to clock in and out using their own smartphone. The app is available for iPhone and Android devices.

## HOME LANDLINE

The Vesta EVV Home Landline Telephone Interactive Voice Response (IVR) system provides a reliable way for Service Attendants and CDS Employees to clock in and out a Home Landline telephone.

## ALTERNATIVE DEVICE

Vesta EVV Alternative Devices are innovative electronic devices that allow Service Attendants and CDS Employees to clock in and out when the Vesta Mobile App or Home Landline is not available.

Vesta EVV offers three dependable, accurate, and user-friendly solutions to verify service delivery and comply with EVV requirements.

# Vesta Mobile

## INCREASED AUTO-VERIFICATION

Vesta Mobile App users averaged an 82% auto-confirm rate in January 2019.

## PRECISE TIME & LOCATION

It only records the location where the Service Attendant or CDS Employee clocks in and clocks out. It does not track the user during the visit.

## EFFICIENCY

It offers efficient data entry with fewer errors. Service Attendants and CDS Employees may view their schedules before starting their shift.

## REMINDERS

Service Attendants and CDS Employees are reminded to clock out of their shift to help them avoid going over scheduled hours.
